**Juror and Workshop Presenter: Soon Y. Warren, AWS, NWS** [www.soonwarren.com](http://www.soonwarren.com)

The class will learn how to create an image of chosen subjects, such as, a cut crystal bowl with florals, Koi pond water, or silver pots in watercolor with a step by step process. To speed up the class exercise, Soon Y. Warren will provide a reference photo and drawing for the group exercise. Following a painting demonstration, workshop participants will do their own painting in order to fully understand the process. While concentrating on technique, the concept of color theory, composition, and color values will be incorporated into the workshop. Painting workshop participants will learn:

- Glazing and washing techniques to create a luminous under painting
- How to utilize light and dark values in order to capture the sparkle of glass
- How to approach a painting
- How to incorporate the concept of color theory and color relationships into a painting
- Discussion and critiques will follow during workshop session
- In addition to the group exercise, participants are encouraged to bring current pieces to paint along with reference photos. To make the most of instructional time, prepare the drawing before the workshop. Read the step by step painting process in my second book, "Painting Vibrant Watercolors: Discover the Magic of Light, Color and Contrast." You can purchase it at a major book store or the internet, such as Amazon.com.
